People on Medicare who choose not to enroll and have no other drug coverage may pay more for late enrollment.

What Does Part D Cost?

In 2021 the Medicare Part D out-of-pocket costs for consumers are:

How Do I Choose a Part D Plan?

Each year you should review your plan options and look for three things:

- Cost - Know all possible out of pocket expenses
- Coverage - Make sure all your current prescription medications are included

What Counts as Income & Resources?

Resources include money in a checking or savings account, stocks, bonds, mutual funds, and Individual Retirement Accounts (IRAs). Resources don't include your home, car, household items, burial plot, burial expenses (up to \$1,500 per person), or life insurance policies. Income includes any money received from social security, pensions, employment, interest and more.

If you qualify for Extra Help, Medicare will pay:

- Most of your copayments/co-insurance
- Full coverage during the donut hole

In 2021, drug costs for most people who qualify will be no more than \$3.70 for each generic drug and \$9.20 for each brand name drug. Look on the Extra Help letters you get, or contact your plan to find out your exact costs.

NOTE: All people with Medicare should review their drug options EVERY year and choose the plan that's best for them!
