

COVID VACCINE BOOSTER DOSES

We are in the process of planning clinics for COVID vaccine booster doses. Information will be posted on the website when details become available.

We are now offering third doses for **IMMUNOCOMPROMISED** clients. If you meet one of these qualifications, or if your physician recommends a third dose because of your condition, you can come in for a third dose:

- Active treatment of cancer with chemotherapy
- Solid organ transplant recipients
- People within 2 years of stem cell transplant/CAR-T-cell therapy
- People with severe primary immunodeficiency (DiGeorge sd, Wiscott-Aldrich sd, CVID, etc)
- People with advanced or untreated HIV
- People with active /ongoing treatment with high dose steroid (over 20mg prednisone daily)
- Medications that suppress the immune system including alkylating agents, antimetabolites such as methotrexate, azathioprine, "biologics" and DMARDs for autoimmune system, cancer chemotherapy meds that reduce the immune system, or transplant immunosuppressive drugs.

If you are immunocompromised, you may receive a third dose at least 1 month after the second dose. Please bring verification of your vaccine status.
